MultiCyclone Plus combines centrifugal and cartridge filtration into one streamlined housing, creating an ultra compact filtration system.

- Dual stage filtration
- Minimal maintenance
- Save water and energy
- 40 ft² pleated filter cartridge

Dimensions

MultiCyclone 12 Plus
- 337mm / 13.3”
- 789mm / 30.9”
- 271mm / 10.7”

MultiCyclone 16 Plus
- 337mm / 13.3”
- 803mm / 31.6”
- 271mm / 10.7”

Warranty
MultiCyclone Plus is covered by a 2 year warranty and 1 year warranty on labour. Commercial installations are covered by a 1 year warranty.
**Dual stage filtration**
Incoming water tangentially enters its multiple hydro cyclones, generating a strong centrifugal effect. Approximately 80% of the incoming dirt load is spiralled down to its clear sediment chamber. The outgoing water is finally polished via its inbuilt cartridge filter, producing crystal clear water.

**Simple maintenance**
MultiCyclone Plus's sediment chamber is easily cleaned by opening its purge valve. Only 15 litres of water is discharged.

**Extended filter capacity**
The MultiCyclone Plus's centrifugal section filter pre-filters up to 80% of the incoming dirt load before it reaches the filter cartridge, magnifying the capacity of its 40 ft² filter cartridge by up to 5 times. MultiCyclone Plus has a filtration capacity equivalent to a 200 ft² cartridge filter or a 24" (600mm) sand filter.

**Ultra compact filtration**
MultiCyclone Plus's streamlined design means the entire filtration system can be installed vertically, reducing the footprint of the equipment pad. Additionally, minimal pipework reduces filtration system's overall head loss. Alternatively the MultiCyclone Plus can be installed next to the pump by using the optional base.

- 1½" / 2" quick fit unions
- Pressure gauge
- 40ft² pleated filter cartridge
- Glass filled thermoplastic
- Hydraulically efficient design
- 12 / 16 hydrocyclones
- Clear poly carbonate sediment chamber
- 1" purge valve
